

Outside the United Kingdom

The way in which the voluntary sector is funded in England may be very different to the way in which it is funded in your part of the world. You may still find the information on this web-site useful.

Sources of funding mentioned on this web-site will rarely provide funds overseas. When they do, they often do so only through UK based voluntary organisations (NGO's).

The newsletter information is designed for England and Wales and will show the way funding operates in the UK. (You should not apply for funds mentioned in these newsletters.) The UK Trusts mentioned rarely fund work overseas and, where they do, different programmes and application procedures will apply.

The process of making a funding application may be very different in your part of the world but the range of issues covered in the information and work sheets will apply to you and they may prove useful to you.
